

YOUTH, ART AND WOMEN'S ACTIVISM IN THE KURDISTAN REGION

WHAT IS MOVING?

ON 2022

10-11 NOVEMBER

Located at UKH

In recent years the debates on and in the Kurdistan Region have been about political rivalries and corruption, a faltering economy, territorial disputes, and gender and sex-based violence (GSBV). But what is happening beyond party politics, and the ongoing wars and insecurities at the region's borders? How are youth and women's activists and the region's emerging artists envisioning their lifeworld and futures? What hurdles do they face, what spaces are they shaping, and what is needed to diversify the voices that are heard? Please join us to explore 'what is moving' during our 1.5-day conference at UKH.
